

Polishing Compound MIRAFLEX S320/S321

One compound for cutting and finish polishing – saving time without compromising results. Designed for modern automotive paint systems, it helps achieve a smooth, glossy finish with less effort and excellent results.

■ Features

- Efficient defect removal with minimized risk of scratching
- Smooth polishing with gentle impact on paint film
- Low-dust formula for a cleaner workspace
- Perfect for pre-coating prep and used vehicle refinishing

■ Variants

MIRAFLEX S320 ... Fast-cut type with enhanced polishing speed

MIRAFLEX S321 ... Finish-focused type with enhanced surface clarity
