

# Robot Polishing

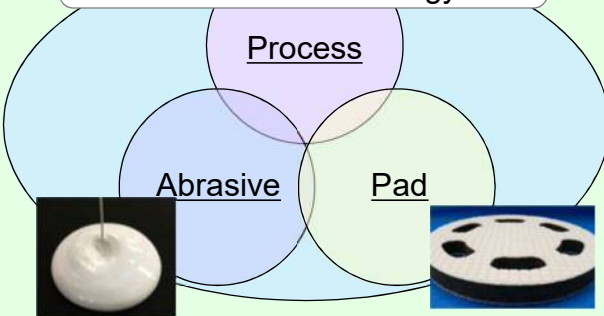

Fujimi is developing robot polishing technology to achieve high precision polishing of various 3D shapes and large scale parts. Fujimi offers a total solution including polishing consumables, machine tools and detailed process guidance.

**Robot Polishing Consumables & Process technology**

Spray Supply System

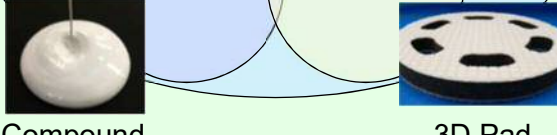

Process  
Abrasive  
Pad

Pad Changer / Pick Up

Syringe Supply System

Compound      3D Pad

Pad Changer / Removal

Full Automatic Robot Polishing System

Dual Polishing Head

Constant Pressure

**Application Example**

New Polishing Compound + 3D Pad  
=> Orange Peel Free Mirror Surface

Clear Coating

Color Coating
